

Jörg Weber

Curriculum Vitæ

Personal information

Title Dr. rer. nat.
Date of birth 2nd April 1993
Gender male
Nationality German
Address Oskar-Morgenstern-Platz 1, 1090 Vienna, Austria
Email joerg.weber@univie.ac.at
Phone +43 1 4277 50478
Website joerg-weber.github.io
ORCID 0000-0003-3631-7491

Work experience

10/2023– **Moritz Schlick postdoctoral fellow**, *University of Vienna*, Faculty of Mathematics
09/2023– **Junior fellow**, *Institut Mittag-Leffler*
10/2023
09/2022– **Researcher**, *Lund University*, Centre for Mathematical Sciences
08/2023
09/2020– **Postdoctoral fellow**, *Lund University*, Centre for Mathematical Sciences
08/2022
10/2016– **Research assistant**, *University of Bayreuth*, Department of Mathematics
08/2020

Education

01/2017– **Ph.D.**, *University of Bayreuth*, Department of Mathematics
07/2020
2014–2016 **Master**, *University of Bayreuth*, Mathematics, secondary subject Physics
2011–2014 **Bachelor**, *University of Bayreuth*, Mathematics, secondary subject Physics

PhD thesis

title *The Relativistic Vlasov–Maxwell System with External Electromagnetic Fields*
supervisor Prof. Dr. Gerhard Rein

Conferences and seminars with own presentation

- 2024 Invited talk at conference *Fluid Flows – Analysis and Modelling*, University of Vienna
Invited talk at *GAMM Annual Meeting 2024*, University of Magdeburg
Invited talk in *Applied Analysis Seminar*, Saarland University
- 2023 Invited talk in *MCMP Seminar* (for Master students in mathematics and physics), University of Vienna
Invited talk in *Brown PDE Seminar*, Brown University
Invited talk in programme *Order and Randomness in Partial Differential Equations*, Institut Mittag-Leffler, Stockholm
Invited talk in programme *Mathematical Problems in Fluid Dynamics, part 2*, Simons Laufer Mathematical Sciences Institute, Berkeley
Invited talk in *Differential Equations Seminar*, University of Missouri
Invited talk in joint seminar *Asymptotic Models in Fluid Dynamics*, Lund University and University of Stuttgart
- 2022 Invited talk at *Vienna School of Mathematics*, University of Vienna
Invited talk in *Analysis and Probability Seminar*, Chalmers University of Technology
Poster in *Workshop on spatial dynamics and related approaches*, University of Stuttgart
Talk at *SIAM Conference on Nonlinear Waves and Coherent Structures*, University of Bremen
Invited talk in seminar *Nonlinear problems in Mathematical Physics*, University of Bayreuth
Invited talk in workshop *New Directions in Water Waves*, University of Bath
Poster at conference *When Kinetic Theory meets Fluid Mechanics*, ETH Zürich
Invited talk in *DNA seminar*, Norwegian University of Science and Technology
Poster at *SIAM Conference on Analysis of Partial Differential Equations* (held online)
Talk at *Conference on Mathematics of Wave Phenomena*, Karlsruhe Institute of Technology
- 2021 Invited talk in *Differential Equations Seminar*, University of Missouri
Talk at *4th IMA Conference on Nonlinearity and Coherent Structures*, Loughborough University
Invited talk in *IntComSin Kolloquium*, University of Regensburg
- 2020 Talk in *Seminar on Analysis, Geometry, and PDEs*, Lund University
Invited talk in *CAA seminar*, University of Erlangen-Nürnberg
- 2019 Talk at winter school *Gradient Flows and Variational Methods in PDEs*, University of Ulm
Talk at conference *ENUMATH 2019*, Delft University of Technology
Invited talk in *Analysis and Probability Seminar*, Chalmers University of Technology
Talk at *GAMM Annual Meeting 2019*, University of Vienna
- 2017 Talk at *Young Researchers Meeting & CSE Workshop 2017*, University of Hamburg

Oskar-Morgenstern-Platz 1 – 1090 Vienna, Austria

Additional conferences and programmes participated in

- 2023 *Courant PIs Workshop* and annual meeting *Simons Collaboration on Wave Turbulence*, Courant Institute of Mathematical Sciences and Simons Foundation, New York
Abel symposium, Orkanger
Conference *Aspects of Nonlinear Evolution*, Leibniz University Hannover
- 2022 Seminar *Free Boundary Problems in Fluid Dynamics*, Oberwolfach seminar
Programme *Mathematical Perspectives of Gravitation beyond the Vacuum Regime*, ESI, University of Vienna (online)
- 2021 Programme *Mathematical Problems in Fluid Dynamics*, Mathematical Sciences Research Institute, Berkeley (online)

Teaching

Lectures

- 2023S *Ordinary Differential Equations II* (Master level), Lund University; designed the course content and created lecture notes; held all lectures (twice per week, in total 18); designed and marked written and oral exams
- 2022S *Fourier Analysis* (Master level), Lund University; designed the course content and created lecture notes; held all lectures (twice per week, in total 16) and seminars (once per week, in total 8) as the only teacher; designed and marked written and oral exams
- 2021W *Linear Analysis* (Bachelor level), Lund University; designed the course content and created lecture notes; held all lectures (twice per week, in total 18); designed and marked written and oral exams

Seminars

- 2024S *Introduction to Mathematical Methodology*, University of Vienna; held exercise classes
- 2024S *Bachelor seminar*, University of Vienna; provided platform for students to work towards and present their Bachelor thesis
- 2020S *Advanced Complex Analysis*, University of Bayreuth; held and organised seminars; marked written exams
- 2019W *Introduction to Ordinary Differential Equations*, University of Bayreuth; held and organised seminars; marked written exams
- 2018S *Introduction to Advanced Analysis*, University of Bayreuth; held and organised seminars
- 2018W *Vector Calculus & Advanced Mathematics for Physicists B*, University of Bayreuth; held and organised seminars; marked written exams
- 2014–2019 *Analysis 1* and *Analysis 2* (several times), University of Bayreuth; held and organised seminars; designed and marked written exams

Taken courses in teacher training

- 2022 *Teaching and Learning in Higher Education*, Lund University

(Co-)Supervision

Master's thesis

2023 Anna-Mariya Otsetova, Lund University

Bachelor's thesis

2023 Abhijeet Vats, Lund University

2021 Yining Zhu, Lund University

Grants

2023 *The Fund of the Walter Gyllenberg Foundation* project *Localised pure-gravity water waves*, The Royal Physiographic Society in Lund, 46,000 SEK

2022 Travel funding for *Workshop on spatial dynamics and related approaches*, University of Stuttgart; *When Kinetic Theory meets Fluid Mechanics*, ETH Zürich; *Conference on Mathematics of Wave Phenomena*, Karlsruhe Institute of Technology (obsolete; conference was held online due to Covid-19)

Fellowships and Awards

2023 *Junior fellowship*, Institut Mittag-Leffler

2023 *Seal of Excellence* of the European Commission for a high-quality project proposal submitted under the call for Marie Skłodowska-Curie Actions Postdoctoral Fellowships 2022

2017 Nominated for *Teaching Award of the Faculty of Mathematics, Physics & Computer Sciences*, University of Bayreuth

Service

Referee for *Advances in Nonlinear Analysis*, *Classical and Quantum Gravity*, *Journal of Differential Equations*, *Journal of Mathematical Fluid Mechanics*, *Mathematical Methods in the Applied Sciences*, *Plasma Physics and Controlled Fusion*, *Zeitschrift für angewandte Mathematik und Physik*

2023 Examiner of Master's thesis of Francisco Carvalho, Lund University

Events

2023 Organisation of *Postdoc/PhD seminar* at Institut Mittag-Leffler

2021–2023 Co-organisation of *Seminar on Analysis, Geometry and PDEs* at Lund University

Computer skills

C++, HTML, L^AT_EX, Maple, Mathematica, MATLAB, Office

Languages

native German

fluent English

intermediate Swedish

Preprints

- [1] J. Bartsch, P. Knopf, S. Scheurer and J. Weber. *Controlling a Vlasov–Poisson plasma by a Particle-In-Cell method based on a Monte Carlo framework*. To appear in *SIAM J. Control Optim.* arXiv: 2304.02083.
- [2] A.-M. Otsetova, E. Wahlén and J. Weber. *Axisymmetric capillary water waves with vorticity and swirl connecting to static unduloid configurations*. arXiv: 2401.04613.
- [3] E. Wahlén and J. Weber. *Large-amplitude steady gravity water waves with general vorticity and critical layers*. To appear in *Duke Math. J.* arXiv: 2204.10071.
